

ILOVEIMG, THE FREE WEB APP TO EDIT IMAGES IN BULK

LoveIMG launches new website including Premium Service

Barcelona, 12th April 2018

iLoveIMG, the free web app to manage image files, alone or in bulk, has launched a new web version. With more than half a million daily users on its website, this brand-new web experience offers a full suite of free tools to compress, resize crop and covert main image formats.

Hailed for its success in helping millions of users save time with their image needs, iLoveIMG aims to optimize user experience when managing batches of images. The new website has a clean uncluttered design and improved functionality focused on the iLovePDF's mission to provide editing tools that load fast and do their job.

iLoveIMG was born after iLovePDF, one of the 1000 top internet websites which offers free software to edit PDFs. Both websites have been conceived to make the job of online edition easier and help users save time and energy for more important concerns in life.

Ever since it was launched on 2016, iLoveIMG users' community hasn't stopped growing. Today iLoveIMG proudly speaks 25 languages, being able to engage with users from all around the world.

iLoveIMG new features include the following:

- **Full redesign** to enhance user experience
- **Easier Workflow**
- **Higher work limits** including bigger file size and file number
- **14 new languages**
- **Premium perks**

The new website has gone live on, April 12th, 2018 and is located at the same address www.iloveimg.com. iLoveIMG new website will be updated on a regular basis with new features, video tutorials, corporate milestones, and articles about digital image within their blog. Visitors are encouraged to explore the website and register for free.
